Skills:

Twenty five years of life experiences in the horseracing industry. Leaving school age 14 and riding in horseraces as a professional jockey from age 16-18 before rising weight & opportunities dried up. I have been employed in many different roles in the thoroughbred industry since, mostly handling & riding horses. Have taken life experiences from many a shady & interesting character found at the track and am looking to continually put them to use in the entertainment industry.
