Rush	Shopper	Southern Star Productions

Skills: Throughout high school I have been involved in drama and dance performances, where I have been awarded first for group dance performance for the competition event called Talent Quest. During my studies of completing Bachelor of Business Management in 2009, I have provided a balance for my life in joining dance classes for extracurricular activities which helps enhance my performing abilities; I have been awarded first place in the category of hip hop dance. On May 2010, as a client of Ripley's Management I have had acting experiences as an extra, the latest was for Australian Television series, Offspring. I am currently working as a Dance teacher at Dance Dynamics, which reinforces my understanding of performing in a wide range of areas, for example executing emotions, facial expressions, body movement, communication etc. for dance performances on special events that our company holds. Asides work I have also gained music lessons in the particular area of vocal techniques and execution.

Hobbies: Dance, Act, Sing, Read, Exercise.
